---

Dear Patrik Demuynck,

In connection with the successful ending of the All-Russian Iaido seminar 7-8 July 2012, I would like to express deep gratitude to you for your important and valuable work on the conduction of this seminar. Among iaido practitioners in Russia you are known as a sensei with high qualification, proficient and talented. In opinion of the members of "Moscow kendo iaido club" ("Mkkl") the seminar went off efficiently and successfully. Knowledge obtained during it is very important for us in our learning of the art of Iaido.

Especially, I would like to mention that holding of such seminar in Russia made it possible to acquire knowledge of essential aspects of Iaido for those people who have not the opportunity to visit European countries and to participate in the international Iaido seminars.

I and all other members of "Mkkl" express sincere thanks to you for the efficient communication during the seminar which in our point of view was from heart to heart. We hope for the further continuation of close cooperation with you in the future development of Iaido in Russia.

Best regards,  
The President  
of the Regional public organization "Moscow kendo iaido club"

 / Shtapov M.B./
